

Curtin University

A young woman with long brown hair, wearing a floral dress, is smiling and looking towards a young girl with red hair who is wearing a blue and purple floral dress. They are sitting at a table, and the woman is holding an open children's book. The book has a colorful illustration of a farm scene with houses, trees, and animals. The text 'grand grand' is visible in a yellow speech bubble, and 'moo moo' is visible at the bottom left of the page. The background is a bright, indoor setting with blue chairs and a white wall with colorful decorations.

STUTTERING TREATMENT CLINIC

Health and Wellness Centre

The Curtin Stuttering Treatment Clinic offers services to people of all ages for the management of stuttering and fluency disorders. Both individual and group treatment is provided by Speech Pathology students under the supervision of a Speech Pathologist specialising in this area. Individual assessment and subsequent treatments are delivered within a broad based and family-centred therapy approach.

Weekly Fluency Groups include: - *Boys and Girls* - *Adolescents and Adults* - *Downs Syndrome*

Group sessions aim to:

- promote more fluent speech in a supported environment
- provide a forum of support and friendship
- address through discussion and activities the negative feelings, thoughts and behaviours that can be associated with stuttering
- promote positive identity and self-esteem so as to foster emotional well-being

Clinic hours are 9.00am to 2.00pm Tuesdays, Wednesdays and Thursdays.

You can find us in Building 404, Curtin University. Google *Curtin Maps*, then look for building 404.
