WHY HEALTH SCIENCES AT CURTIN?

The Faculty of Health Sciences educates more health professionals than any other Western Australian tertiary institution. Our courses provide you with knowledge and discoveries that help you make a real difference to people's lives, locally and globally.

For more information go online healthsciences.curtin.edu.au

One of the WORLD’S MOST INTERNATIONAL UNIVERSITIES

Curtin was ranked 26th most international university in the world in the Times Higher Education World University Rankings 2016.
LEARN TO WORK IN A HEALTHCARE TEAM

Healthcare professionals rarely work alone, but rather in teams made up of people with diverse skills and backgrounds. Learn how to perform as part of an effective interprofessional healthcare team by joining Australia’s first university to introduce an interprofessional education curriculum for all 25 of our undergraduate health sciences degrees.

TEACHING AND RESEARCH

Our dedicated team is committed to delivering an exceptional learning experience, and our strong academic orientation ensures that your learning remains at the forefront of evidence-based practice.

Our courses are often designed and taught by healthcare professionals and researchers, providing you with access to industry networks and expertise. The Faculty of Health Sciences’ strong research capabilities attract experts from a range of fields. Many of our specialists teach classes, meaning you can interact with some of the country’s most knowledgeable health sciences academics in your lectures and tutorials.

3D LIFE-SIZE VIRTUAL BODIES

Cut, pinch, rotate and zoom on a virtual human body with our Anatomage Tables. Created with computed tomography (CT) scans, the tables allow you to investigate the human body by virtually dissecting it. You can isolate blood vessels, arteries and veins, nerves, organs, muscles and bones, or view these in combination to see how they relate to one another.

LEARN WITH AVATARS

If you study speech pathology, you will meet ‘Jim’, the virtual patient, a computer-based avatar, just like those you find in a computer game. By working with Jim in a virtual setting, you can learn how to effectively communicate with a client in a safe environment before moving on to work with real clients.

ACCREDITATION

Many of our courses are accredited by industry associations and may allow you to work in other countries around the world upon graduation.

CAREER-FOCUSED COURSES

Our programs have strong industry links to ensure you are career-ready, highly regarded and sought after by healthcare institutions when you graduate.

FOR MORE INFORMATION ONLINE

healthsciences.curtin.edu.au
EXPERIENCE OUR SIMULATED HOSPITAL WARD
Curtin has invested over AUD$2.5 million in a new clinical simulated hospital ward to assist in the training of nurses and midwives.

The innovative setting is a replica of the hospital environment at the new Fiona Stanley Hospital in Perth and houses simulation rooms that mimic acute medical and surgical areas, a critical care area, a paediatric area and a general simulation room. The non-clinical rooms are multipurpose, which enable simulations such as note-taking, handover and case conferencing.

The facility is also capable of supporting interactive technologies used in augmented reality and virtual reality simulations.

DISCOVER MORE ABOUT HEALTH IN INNOVATIVE FACILITIES
Curtin has built new learning and research facilities for occupational therapy and social work students. The innovative building has had over AUD$9 million invested into it and enables you to practise realistic client and family-centred-care scenarios in team-based settings. The impressive two-storey development based on the University’s Bentley Campus uses new technology to enable you to undertake simulated scenarios alongside current technologies.

GET THE EDGE WITH OUR ROBOTIC DISPENSING SYSTEM
As a Curtin pharmacy student you will gain a competitive-edge using a state-of-the-art robotic dispensing unit, the only one of its kind being used for training purposes in Western Australia.

The robot can improve the speed and risk management procedures of dispensing medications. The system also provides greater stock management efficiencies, giving you relevant industry training and practical experience using advanced technology.

You will train in a multi-million dollar model pharmacy dispensary, which can simulate a range of real-life settings such as a community pharmacy. You will be provided with your own workstation, computer and label generator, and will get the chance to dispense real medicines and use simulations of real prescriptions.

This award-winning international student mobility program works alongside partner organisations in Asia to provide innovative clinical fieldwork placements that change lives.

Go Global is an interprofessional learning fieldwork program offered exclusively to health sciences students.

Go Global provides you with the opportunity to become immersed in a different culture while completing a clinical placement at one of Curtin’s partner sites in Asia.

The program is a valuable opportunity to learn the complexities of a different healthcare system, appraise your own cultural awareness and competence, and practise leadership and discipline-specific skills in an interprofessional team.

Want to get a feel of what our Go Global students do?

In 2015, eleven students from physiotherapy, occupational therapy and speech pathology travelled to Vietnam as part of Go Global.

In interdisciplinary teams they worked together with the residents of the Hoa Binh Centre for Social Protection to improve the health and wellbeing of the centre’s community.
BACHELOR DEGREE

3-4 YEARS

Your first qualification at university is referred to as an undergraduate or bachelor degree. It is normally the minimum requirement for further study, such as honours or postgraduate study.

DOUBLE DEGREE

AT LEAST 4 YEARS

A double degree is more work than a single degree, but will provide you with two qualifications in less time than it would take to complete two degrees separately.

PLAN YOUR TIMETABLE ONLINE BEFORE THE START OF EACH SEMESTER

If your units do not have set classes, you may be able to modify your timetable online before you start the semester.

students.curtin.edu.au

BLACKBOARD: CURTIN’S ONLINE LEARNING SYSTEM

Blackboard is an online portal that supports in-class unit content. It is available anytime and on most devices.

With Blackboard you can:

• connect with peers and lecturers
• stream and/or download high-resolution video or audio files of lectures
• participate in online workshops and tutorials
• access course materials, such as unit outlines.

DEFINITIONS

CAMPUS
Where the course is taught.

FIELDWORK OR CLINICAL PRACTICE
Working in a professional environment to extend your knowledge and practical skills.

PREREQUISITE
A subject or unit you must complete before starting a course or taking a higher-level unit.

STUDY MODE

F = Full-time

As an international student studying in Australia on a student visa, you must study 4 units or 100 per cent study load per semester.

JOSEPHINE ZIMAMA
Bachelor of Science (Health Sciences)

“I believe health is life and with this knowledge I hope to help improve the health of many immigrants and refugees like myself.”

Josephine Zimama is a health sciences student with a passion for health promotion. Motivated by the belief that “education is the key,” the determined student and former refugee has overcome negative stereotypes and worked hard to attend university. Whether she decides to work in Australia or Africa, Josephine desires to improve the health of people wherever she goes.

Josephine is a Human of Curtin. You can read her story and those of other Humans here: curtinuniversity.tumblr.com

IBRAHIM ADEL IBRAHIM
Bachelor of Pharmacy

I chose to study at Curtin because of the highly qualified and dedicated teaching staff. Curtin employs many of the top academics to teach, particularly in the School of Pharmacy. I believe that by studying under the direction of skilled educators I will be extremely prepared upon entering my professional health career as a pharmacist.

MAY CHONG
Bachelor of Science (Speech Pathology)

The lecturers are great, you learn so much and then you go out there and you do what you love. The ultimate best thing? Seeing the change that you can make with the people that you help and work with.

TRONG NHAN DO
Bachelor of Pharmacy

My grandfather is a pharmacist in Vietnam. He inspired me with his success story, so I choose pharmacy as my degree. I discovered that pharmacy is not just about sticking a label on the box. There is a lot more too it than that. I’ve learned how drugs work inside our body, how to compound medications in different forms and how to give health advice to patients. After graduating, I want to do both hospital and community pharmacy and optimise the health outcomes of the community that I serve.

QING WANG
Bachelor of Science (Laboratory Medicine)

I chose to study laboratory medicine because I want to help people. The medical knowledge this degree covers will allow me to do that. The best thing about this course is its hands-on learning.
Work with individuals, teams and other groups to assess physical abilities, and design and implement exercise training programs.

In this course you’ll gain theoretical and practical understandings of exercise and sports physiology, biomechanics, motor control, motor learning and skill acquisition, and exercise and sports psychology.

The course emphasizes client-centred practice to help you develop strong interpersonal communication, critical thinking and problem-solving skills.

In your first year you will learn the foundations of exercise science and study interprofessional units with students from other health disciplines. In your second and third years, you’ll specialise in exercise and sports science, and undertake laboratory and fieldwork.

YOUR FUTURE IN EXERCISE, SPORTS AND REHABILITATION

FIELDWORK HOURS OVER 3 YEARS 140

Help individuals, groups and communities improve their health and make the healthy choice an easy choice.

This course is designed to equip you with the theoretical and practical skills required for a career in health promotion. You will learn how to identify the health needs of individuals, groups and communities, develop people’s skills and knowledge in health, advocate for policies and laws that support health choices and plan, implement and evaluate health promotion activities.

In your first year you will learn the foundations of health promotion and study interprofessional core units with students from other health disciplines. In your second and third years you will specialise in health promotion. You will also have the opportunity to undertake an on-campus health promotion campaign and a 100-hour professional placement in a health promotion organisation.

YOUR FUTURE IN HEALTH PROMOTION

Wages will vary according to your level of skill, experience and employer.

Example career: health promotion officer

Average earnings AUD$1,500 per week

Average salary AUD$78,000 per annum

Employment levels in Australia as of 2014

Projected level in 2019 = 5,400

Job growth for health promotion professionals in the last five years

11% growth

Job outlook

Employment for other health diagnostic and promotion professionals to November 2019 is expected to grow very strongly.

Average weekly hours for full-time workers in 2014.

Professional accreditation Accredited by the International Union for Health Promotion and Education.

Professional memberships Australian Health Promotion Association
Public Health Association of Australia.

Further study options Coursework Master of Public Health
Master of International Health.

Detailed unit information is available online: courses.curtin.edu.au

HEALTH PROMOTION AND HEALTH AND SAFETY

Work to prevent injury and disease in the workplace and in the community.

This double degree course is designed to develop your expertise in both health promotion and occupational health and safety. Your first year is interprofessional and is taken with other health sciences students. In the following years, you will specialise in the areas of health promotion and health and safety.

You will learn how to plan, implement and evaluate health promotion activities and to advocate for policies and laws that support healthy choices. The occupational health and safety component will equip you with skills to contribute proactively to risk management and assessment, and the prevention of injuries and disease in the workplace.

Your studies will also explore the roles health promotion and health and safety have in the workplace, community and government.

You will have the opportunity to participate in an on-campus health promotion campaign, undertake a 100-hour professional placement in a health promotion organisation, and complete 200 hours of placements in health and safety. Fieldwork visits will also give you the chance to see health and safety in action.

YOUR FUTURE IN HEALTH PROMOTION AND SAFETY

Wages will vary according to your level of skill, experience and employer.

Example career: health and safety professional

Starting salary AUD$70,000 per annum
Senior salary AUD$160,000 per annum

Employment levels in Australia

Current level as of 2014 = 30,000
Projected level in 2019 = 36,700

Job outlook Employment for occupational health professionals to November 2019 is expected to grow very strongly.

Promote and improve healthy food choices in the community.

In this course, you will develop skills and knowledge in nutrition, the principles of health promotion and how to address issues of poor nutrition in populations. You will learn to plan, implement and evaluate nutrition and health promotion programs, explore principles related to primary health services, and learn strategies and methods for promotion and evaluation.

You will also explore health issues such as alcohol and other drugs, injury control, cancer, physical activity and mental health.

Your first year is interprofessional and taken with students from other health sciences degrees. In your subsequent years you will specialise in health promotion and nutrition.

YOUR FUTURE IN HEALTH PROMOTION AND NUTRITION

Wages will vary according to your level of skill, experience and employer.

Example career: health promotion officer

Average earnings AUD$6,500 per week
Average salary AUD$57,000 per annum

Employment levels in Australia

Current level as of 2014 = 7,300
Projected level in 2019 = 5,400
Job growth for health promotion professionals in the last five years = 11% growth

You will also explore health issues such as alcohol and other drugs, injury control, cancer, physical activity and mental health.

Your first year is interprofessional and taken with students from other health sciences degrees. In your subsequent years you will specialise in health promotion and nutrition.

BACHELOR OF SCIENCE | HEALTH SCIENCES: HEALTH SCIENCES MAJOR

THE HEALTH SCIENCES MAJOR

The health sciences major is a multidisciplinary degree that gives a solid grounding in public health. You can use the degree to work in the area of public health or as a pathway into other health degrees, such as speech pathology, pharmacy, physiotherapy and occupational therapy.

Public health practitioners work to achieve better health based on the prevention of disease and disability. Rather than working with individual clients on a one-on-one basis, public health practitioners work at the community or whole population level. They pay special attention to how social, economic and environmental factors affect health and wellbeing.

Optional units also allow you to pursue your own interests in other health areas or to choose one subject for in-depth learning.

YOUR FUTURE IN PUBLIC HEALTH

Wages will vary according to your level of skill, experience and employer.

Example career: life scientist

Average earnings: AUD$51,500 per week

Average salary: AUD$57,600 per annum

Employment levels in Australia

Current level as of 2014: 12,900

Projected level in 2019: 14,200

Average weekly hours for full-time workers in 2014: 39.5

Job growth for life scientists in the last five years: 51% growth

Professional memberships

Public Health Association of Australia

Australasian Epidemiological Association.

If you are seeking a career in allied health,
but are not yet ready to commit to a
particular profession, this course is an
ideal stepping-stone to other courses and
careers such as occupational therapy,
treatment of scenarios that are essential to health information
management. You will also need
responsible, and the ethical, privacy
and confidentiality matters that
surround health information.

LABORATORY MEDICINE

COURSE ESSENTIALS

**BACHELOR OF SCIENCE**

**LABORATORY MEDICINE**

Laboratory medicine teaches you about pathology (the origin, nature and course of disease) and the diagnosis of disease.

In your third and fourth years, you gain extensive field experience and focus on three of the following major disciplines: clinical biochemistry, diagnostic cytology, haematology and blood transfusion science, histopathology, diagnostic cytology, immunology, and medical microbiology.

**YOUR FUTURE IN MEDICAL LABORATORY SCIENCE**

Wages will vary according to your level of skill, experience and employer.

Example career:

**Medical laboratory scientist**

**BIOTECHNOLOGY**

YOUR FUTURE IN MOLECULAR GENETICS AND BIOTECHNOLOGY

Learn about genetics and biotechnology and how they are improving health outcomes, boosting agricultural productivity and industrial processes, and enhancing environmental sustainability.

In this course, you can develop the knowledge and technical skills you need to contribute to many applications of molecular genetics and biotechnology. Your first year is interprofessional and will provide a general introduction to biomedical science and other supporting disciplines. Starting from second year, your study will expand to include genetics, biochemistry, microbiology and immunology, and you will be introduced to cutting-edge technology for molecular and genetic analyses.

You will also explore the legal, social and ethical implications raised by the advent of molecular biotechnology, issues surrounding intellectual property and patents, and commercial opportunities relevant to the biotechnology industry in Australia and surrounding regions.

**YOUR FUTURE IN MOLECULAR GENETICS AND BIOTECHNOLOGY**

Wages will vary according to your level of skill, experience and employer.

BACHELOR OF SCIENCE (NURSING)
REGISTERED NURSE CONVERSION AUSTRALIAN REGISTRATION NURSE STREAM

Become a registered nurse and give comprehensive care to patients in a variety of settings.

This course provides a wide-ranging program of simulated practice and fieldwork, advanced clinical skill development, biological, behavioural and nursing sciences, and the opportunity for an international study experience. Your studies will focus on developing the skills and knowledge you’ll need to meet the demands of our changing healthcare system. You will be encouraged to be an active, contributing member of an interprofessional healthcare team, which will give you the opportunity to study with different nursing and medical specialists in a range of fields.

YOUR FUTURE IN NURSING
Wages will vary according to your level of skill, experience, employer, shift allowances and level of education.

Average salaries:
- Registered nurse: AUD$67,028 per annum
- Nurse manager: AUD$84,396 per annum
- Nursing researcher: AUD$78,000 per annum

Employment levels in Australia:
Practising nurses and midwives employed in June 2015: 364,742

Job outlook:
Employment for registered nurses to November 2019 is expected to grow very strongly.

Professional recognition:
Upon graduating you can become a Registered Nurse (Division 1) with the Nursing and Midwifery Board of Australia. Please refer to page 20 for more nursing career information.

## BACHELOR OF SCIENCE
### NUTRITION

Learn about the science of nutrition and how to promote healthy diet behaviours to improve the nutritional status of populations.

This science-based course provides you with high-level communication and teamwork skills. Your first year will be interprofessional and taken with other health sciences students. Your second year builds on this foundation and you will study sciences such as biochemistry and physiology in order to understand how the human body uses nutrients from foods to sustain life. Off-campus field trips will also help you experience food and nutrition issues in real-life settings.

Your third year units will emphasise the practical training necessary for a career as a public health nutritionist or research nutritionist. On graduation, you are eligible to apply for Curtin’s postgraduate program in dietetics.

### YOUR FUTURE IN NUTRITION

| Wages will vary according to your level of skill, experience and employer. |
| Example career: nutritionist* |
| Average earnings | AUD$3,500 per week |
| Average salary | AUD$78,000 per annum |

Employment levels in Australia:
- Current level as of 2014 = 5,400
- Projected level in 2019 = 7,300
- Average weekly hours for full-time workers in 2014 = 40.5

### COURSE ESSENTIALS

### YOUR FUTURE IN OCCUPATIONAL THERAPY

Wages will vary according to your level of skill, experience and employer.

- Example career: occupational therapist

| Wages and salary | Average salary = AUD$80,400 per annum |

Employment levels in Australia:
- Practising occupational therapists in August 2015 = 16,629
- Job growth for occupational therapists to November 2019 is expected to grow very strongly.

### OCCUPATIONAL THERAPY

Occupational therapists work with people of all ages who may have experienced injury, illness or disability. They aim to help people engage in occupations or activities that are meaningful to them, and to achieve independence, health, wellbeing and satisfaction in their lives.

In this course, you will learn to identify physical, psychosocial, cognitive, behavioural and environmental factors that can help or hinder a person’s participation in everyday activities. You will learn to collaborate with other health professionals to provide cross-discipline care that is focused around the client and their needs.

You will study in laboratories, learning spaces and resource rooms that are tailored for learning the skills required to work in occupational therapy. Fieldwork placements will complement your studies and help you to integrate the essential skills needed for individual, family and community practice.

**BACHELOR OF PHARMACY**

**PHARMACY**

The goal of pharmacy care is to maximise positive healthcare outcomes and improve patients’ quality of life with minimum risk.

In your first year you will learn the foundations of biochemistry, physiology and pharmacy practice. Your first year will also cover interprofessional healthcare and you will study alongside students from other health science degrees. In your following years, you will study pharmacoeconomics, medicinal chemistry, antimicrobial chemotherapy, pharmacology and pharmaco therapy.

Professional accreditation

Accredited by the Australian Pharmacy Council and is the only accredited undergraduate pharmacy course in Western Australia.

Professional registration

After completing your degree, you will need to complete an internship of 1,824 hours (approximately one year full-time) before you can register as a pharmacist before you can register as a pharmacist.

You will also continue to develop your pharmacy practice skills.

You will complete a minimum of 12 weeks of clinical placements during the course and there are opportunities for you to take your placements interstate and overseas in hospitals, the community, or in industry.

**YOUR FUTURE IN PHARMACY**

Investigate the physical, structural and physiological aspects of the human form and movement. You will learn to prevent, diagnose, treat and rehabilitate injuries and disabilities using hands-on treatment, prescriptive exercise and lifestyle advice.

In this course, you will undertake a combination of theoretical, practical and clinical subjects. Your first year of the course is interprofessional and is undertaken with other health sciences students. The following years will be devoted to a more intensive study of the musculoskeletal, neurological and cardiopulmonary areas.

You will develop practical skills in laboratory classes and under clinical supervision at hospitals and community settings. You will become familiar with acute and long-term case management, and may take placements in rural and remote healthcare settings.

Wages will vary according to your level of skill, experience and employer.

Example career: graduate physiotherapist with the Western Australian Department of Health in 2015

Indicative entry-level salary

in WA Health

AUD$58,600 per annum

Employment levels in Australia

Current level

as of September 2015 = 26,601

Projected level in 2019 = 28,700

Job growth for physiotherapists in the last two years = 53.2%

Job outlook

Employment for physiotherapists to November 2019 is expected to grow very strongly.

Professional registration

On graduating you are eligible to apply for registration with the Physiotherapy Board of Australia and membership of the Australian Physiotherapy Association. You may also apply for registration in New Zealand. To work in the United States, United Kingdom or Canada, you will need to provide details of your program of studies to the relevant bodies and may be required to sit a licensing examination.

Professional memberships

Australian Physiotherapy Association.

Further study options

Coursework

Graduate Certificate in Clinical Physiotherapy

Master of Clinical Physiotherapy – majors include: Clinical Physiotherapy, Sports Physiotherapy, Manipulative Therapy, Continence and Women’s Health.

Research

Doctor of Philosophy (PhD) – fields include, but not limited to: musculoskeletal, women’s health, aged care, cardiopulmonary, occupational health and safety, sports injuries, infants and paediatrics, and neurological conditions.

BACHELOR OF SCIENCE

PSYCHOLOGY AND HUMAN RESOURCE MANAGEMENT

Use your knowledge in psychology to help resolve issues in the workplace, recruit and engage employees, and improve individual and team performance.

This course is designed to provide a basis in and appreciation of the scientific discipline of psychology as well as the human resource management professions.

This combination provides you with a highly marketable knowledge base that allows you to relate to a broad range of managers, professionals and consultants. It also gives you a foundation for further studies to become a professional psychologist or to do research.

Sources 1, 2, 3, 4, 5: Job Outlook. 2015. joboutlook.gov.au

YOUR FUTURE IN HUMAN RESOURCES

Wages will vary according to your level of skill, experience and employer.

Example career: human resources professional

Job outlook: Employment for human resource professionals to November 2019 is expected to grow moderately.

Professional recognition

To become a registered psychologist after graduating from this degree you will need to complete an additional year of undergraduate psychology study and a further two years of skills-based training and/or postgraduate study.

Professional memberships

Upon graduating you will be eligible to apply for professional membership of the Australian Psychological Society, to apply for membership to the Australian Institute of Human Resources. To be eligible for associate membership of the Australian Psychological Society you must complete and additional year of undergraduate psychology study and a further two years of skills-based training and/or postgraduate study.

PSYCHOLOGY

Learn about perception, cognition, emotion, personality, behaviour and interpersonal relationships and how psychologists examine, explain and predict what people do as individuals and in groups.

In the third year, you will prepare a research proposal and develop advanced knowledge in abnormal psychology, cognitive, individual differences, cross-cultural and indigenous psychology, community psychology and adult development. The fourth year includes a research component undertaken as a group project.

In Australia, it is estimated that 45% of people will experience a mental health condition in their lifetime. 5

YOUR FUTURE IN PSYCHOLOGY

Wages will vary according to your level of skill, experience and employer.

Social workers are committed to social justice, human rights and social change. They work with and alongside individuals, groups and communities to maximise human potential and achieve social justice and change.

Social work draws on knowledge from a range of disciplines including economics, health, philosophy, politics, psychology and sociology. In this course, you will explore these themes as they relate to human behaviour and complex social processes. You will use purpose-built teaching spaces and resources to facilitate innovative learning and help you develop the skills, knowledge and values needed to practise as a social worker working with diverse populations. You will be encouraged to critically reflect on everyday life, and to understand how people relate to each other and their environments. To help you to be job-ready, you will undertake two full-time supervised field placements. This field practice gives you the opportunity to link social work theory and practice and learn on-the-job skills and knowledge.

YOUR FUTURE IN SOCIAL WORK

Wages will vary according to your level of skill, experience and employer.

Example career: social worker

Average salary AUD$57,200 per annum

Employment levels in Australia as of 2014

CURTIN ENTRY REQUIREMENTS

CRIMINAL RECORD SCREENING

Before applying for health sciences courses, you should be aware that many areas of employment require practitioners to have a criminal record screening.

As a component of your course, you may undertake external placements, clinical practice or fieldwork involving contact with the public. External agencies, such as government departments, nongovernment agencies and hospitals may require you to obtain a criminal record screening prior to an external placement. Please note that external agencies can vary their requirements without notice and may not always advise the University of changes.

A criminal record may not necessarily preclude you from participating in any of the above. However, serious crimes of a violent or sexual nature, where the victim was under 18 years of age or elderly, for dealing or trafficking in drugs, involving fraud, or any offence that resulted in a jail sentence, may render a person unsuitable for employment and/or provision of services to clients.

If you apply for a criminal record screening, this information may be placed on a national database and made available to other authorities (if it is of a sexual or child-related nature). Details about obtaining the relevant criminal record screening will be provided upon your enrolment or as part of your offer.

At this time, the University is aware that a criminal record screening may be required to enrol in a number of health sciences courses. Please check the entry requirements section of your course online at courses.curtin.edu.au for the most up-to-date information.

STUDENT REGISTRATION

The following courses, which lead to registration as a health professional, require the University to register students with the Australian Health Practitioner Regulation Agency (AHPRA):

- nursing
- occupational therapy
- pharmacy
- physiotherapy
- psychology.

Under national law, it is a requirement that the University notifies AHPRA if they believe a student may place members of the public at risk as a result of a health impairment or criminal history. The University or its staff may also make a voluntary notification if a student has been charged, convicted or found guilty of an offence punishable by an imprisonment of 12 months, or contravened a condition of their student registration. Students who have impairments or who have a criminal record that has resulted in imprisonment are required to self-report to AHPRA.

WORKING WITH CHILDREN

The Working with Children (Criminal Record Checking) Act 2004 aims to protect children from harm by introducing a high standard of compulsory national criminal record checking for people wishing to do paid, unpaid or volunteer work with children in Western Australia.

As health sciences student you may be required to work with children between the ages of zero and 17 as part of your practicum. In such cases, you will need to have a valid a Working with Children Check. Your course coordinator will advise you when you need to obtain this check.

CLINICAL HEALTH SCIENCES SCREENING

If you are enrolled in a course that includes supervised practice (including research) in a clinical setting, you are required to undergo screening for and vaccination against a range of infectious diseases before beginning the placement.

You also may be required to complete other requirements at your own cost, such as first aid training.

For specific details relating to these requirements, visit:
healthsciences.curtin.edu.au/studying-health-sciences/fieldwork
MINIMUM ENGLISH LANGUAGE ENTRY REQUIREMENTS

**ENGLISH LANGUAGE TEST** | **MINIMUM SCORE**
--- | ---
ICTS (International English Language Testing System) | 6.5
Cambridge Proficiency in English (CPE) | 6.5
Cambridge Advanced in English (CAE) | 6.5
Cambridge First Certificate in English (FCE) | 5.5
IELTS (International English Language Testing System) | 6.0
TOEFL iBT (Internet-based Test of English as a Foreign Language) | 80

**MINIMUM ACADEMIC ENTRY REQUIREMENTS**

**COUNTRY QUALIFICATION AND MINIMUM ENTRY REQUIREMENTS**

**Australia**
Successful completion of any Australian university English language proficiency program of one semester (six months) full-time in duration or more, that is accredited by the recognized institution and English competence.

**Bangladesh**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Brazil**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the National College Entrance Exam (ENEM) with an average of at least 1500 in the Critical Reading, Mathematics and Writing sections in the same sitting, with a minimum of 460 in each section or a composite score of 24 or better in the American College Test (ACT) OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Cambodia**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Canada**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**China**
Successful completion of the National College Entrance Examination (NCEE) or also known as the Gaokao and obtain an aggregate of the required individual subjects which is equivalent to 67% of the overall maximum score, or a grade of 320/420, 62/80, 533/715, 7/10 at 4/900 with separate evidence of English competence required OR one year of bachelor degree at a recognized university and English competence.

**Colombia**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Hong Kong**
Successful completion of the Diploma of Secondary Education (DSE) with a point score of 15 from the four best subjects with at least grade A in English language or with separate evidence of English.

**Indonesia**
Successful completion of the DHL (Diploma H整天2n Lingkungan Hidup) Certificate of Competence in Environmental Science with an average of at least 80 in four subjects, one of which must be English (with 65 or better) or separate English Competence at Indonesian National University (University of Indonesia) with an average grade of at least 80 in the subjects, one of which must be English (with 65 or better) or separate evidence of English competence. Refer to course three for cut-off scores.

**Iran**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree in Higher Education (after completion of National High School Diploma) from a recognized institution and English competence.

**Japan**
Successful completion of the first year of a Gakushuin University bachelor degree at a recognized institution and English competence OR Certificate of Graduation awarded by a recognized private/trade/technical college and English competence.

**Kenya**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Korea**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Malaysia**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Mexico**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Malaysia**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**New Zealand**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Nigeria**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Philippines**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree at a recognized institution and English competence.

**Russia**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree at a recognized institution and English competence.

**Singapore**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree at a recognized institution and English competence.

**South Africa**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree at a recognized institution and English competence.

**South Korea**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree at a recognized institution and English competence.

**Sweden**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree at a recognized institution and English competence.

**Taiwan**
Successful completion of the National University Entrance Exam with an average of at least 80 in four subjects, one of which must be English (with 65 or better) or separate evidence of English competence. Refer to course three for cut-off scores.

**Thailand**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of a two-year associate degree at a recognized institution and English competence.

**United Kingdom**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**United States**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Uzbekistan**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Zambia**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Zimbabwe**
Successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence OR successful completion of the first year of a four-year bachelor degree at a recognized institution and English competence.

**Note:** Students from countries not listed should contact Curtin International for further details.
FEE INFORMATION
The tuition fees (shown in Australian dollars) are based on a normal full-time workload of 100 credits per semester (200 credits per year) unless otherwise stated. If you study more than 100 credits per semester, you will have a higher annual tuition fee. The tuition fee is calculated and charged on a semester basis.

Individual unit (subject) fees are listed at fees.curtin.edu.au/course_fees.cfm

Note: all listed fees are subject to annual increases.

OFFER LETTER (100 CREDIT) PUBLISHED FEE
As an international student, you need to pay the fees for your first study period (one semester or 100 credits) before arriving in Australia in order to receive a confirmation of enrolment.

The fee quoted on the international offer letter is only an approximation and may differ slightly in accordance with the units you choose to study upon your enrolment.

INDICATIVE ESSENTIAL INCIDENTAL FEES
Some courses require compulsory additional payment for retainable materials and course-related fees, known as essential incidental fees. Some individual units may have optional fees for course materials and other course-related items.

The indicative essential incidental fees listed in this guide are correct for 2016 and may be subject to change.

REFUND AGREEMENT
The categories under which the University Fees Centre will assess an application for refund are laid out in the University’s International Student Refund Agreement. The agreement is supplied to you with your Letter of Offer and can also be accessed online at fees.curtin.edu.au/refunds.cfm, where you can also view the most up-to-date information as the policy is subject to change.

APPLICATION PROCESS

The following information is relevant to you if you are applying directly to the University. If you are using the services of a Curtin registered agent, you should lodge your application via the agent and contact them for any queries throughout the admission process.

1 APPLY

Option 1: Apply online
Visit international.curtin.edu.au/apply
Note: students applying to study doctoral and master degrees by research or doctoral degrees by coursework should refer to research.curtin.edu.au

Option 2: Post or scan and email an application form (see page 39)

Documents to be submitted with application
- Certified copies of all your previous qualifications (e.g. academic transcripts, grading system descriptions and award certificates).
- English language entry requirements such as academic IELTS and TOEFL.
- Supplementary information documents (if applicable).
- Evidence of change of name (if applicable).

Certified documents
- Signatures on certified copies of transcript(s) and award certificate(s) must be accompanied by an ink imprint stamp/chop from the following accepted authorities:
  i. an authorised Curtin representative
  ii. a Curtin International staff member
  iii. a person of authority at the issuing institution (e.g. register).
  iv. a Justice of the Peace
  v. a Commissioner for Oaths/Declarations
  vi. any notary public.

English translation
- Certified copies of your transcript(s) and award certificate(s) in the original language (if issued in a language other than English) must be provided with English language translated copies from the following accepted authorities:
  i. an official and accredited translator
  ii. a Curtin International staff member
  iii. a person of authority at the issuing institution.

2 AWAIT YOUR OFFER

• Assessment of your application takes 2–4 weeks.
• If we require more documents to assess your application, they will be requested from you.
• Assessment of your application will be delayed until we receive these documents.

Credited for Recognised Learning (CRL)
• We will not be able to assess CRL for previous studies without an application and certified copies of all your previous academic transcripts/statement of marks and award certificates to date.
• CRL is granted at the discretion of the school/faculty.

3 RECEIVE YOUR OFFER

Your offer package consists of:
- Letter of Offer
- Acceptance of Offer form
- Payment Options form
- Terms of Offer
- International Student Refund Agreement flyer
- Streamlined Visa Processing (SVP) form
- Pre-departure Guide
- Curtin Housing Services brochure
- Overseas Student Health Cover (OSHC) brochure

4 ACCEPT YOUR OFFER

Steps to accept your offer:
Step 1 Read your Letter of Offer carefully, ensuring your name, course title and semester are correct.
Step 2 Meet all conditions on your Letter of Offer.
Step 3 Submit your Acceptance of Offer form, deposit of tuition fees, Overseas Student Health Cover fee, SVP form, and a photocopy of your passport details page.

5 APPLY FOR YOUR VISA

• You will need to apply for your student visa after receiving your electronic Confirmation of Enrolment (eCoE).
• Your eCoE will be sent to you via email.
• The duration of your student visa will vary depending on your course (contact the Australian Embassy to find out more about the visa application process).

INTERNATIONAL APPLICATION FOR ADMISSION TO AN UNDERGRADUATE DEGREE OR POSTGRADUATE COURSEWORK DEGREE

• This application form is for international students applying to study onshore in Australia.
• International students applying to study outside Australia should complete the relevant undergraduate or postgraduate Application for Admission form available from futurestudents.curtin.edu.au.
• Students applying to study doctoral and master degrees by research or doctoral degrees by coursework should refer to research.curtin.edu.au.
• To complete an online application, visit international.curtin.edu.au/apply
• Please consult the academic and English language requirements concerning the course you wish to apply for.

**DECLARATION**

I declare: ☐

1. All the information and supporting documents provided with this form are true and correct.
2. I understand the University may obtain or release my personal information to any party as permitted by the Freedom of Information Act 1982 (WA) and will take reasonable steps to protect it from unauthorised access, use, modification or disclosure.
3. I understand the University’s academic and English language requirements for my chosen course; and
4. The University reserves the right to exclude me from the admissions process if it is not satisfied that I meet the CRICOS and GTE requirements; and
5. The University reserves the right to exclude me from the admissions process or cancel my enrolment if I am or become personally prohibited under any Federal legislation or regulation from commencing or enrolment in any part of the course I am applying for.
6. The personal information collected on this form is used and during my enrolment at Curtin University may be disclosed to: • the Australian Government and designated authorities where required for compliance with the Education Services for Overseas Students Act 2000 (Cth) and its associated regulations; • Curtin overseas representatives for the purposes of assisting me with my application; • the University’s preferred Overseas Student Health Cover provider for the purposes of setting up an insurance policy; • Curtin overseas representatives for the purposes of assisting me with my application; and • the University’s academic and English language entry requirements, the University may fax/scan my full application to a partner institute for consideration for an appropriate preparatory program or for the successful completion of which qualify me for admissions into specified courses at Curtin University.

If you have a disability, impairment or long-term medical condition which may affect your studies, you may be eligible to receive support services, equipment and facilities available that may assist you. No ☐ Yes ☐

**PRIVACY STATEMENT**

At Curtin University, the privacy of our students, staff and the people we deal with is very important to us. Much of the information the University collects is in order to provide the services and help you. For details on how the University will use, disclose and protect your personal information, visit global.curtin.edu.au/apply/privacy-statement.cfm

*Certified means witnessed by a Curtin representative, a notary public, Commissioner for Declarations, Justice of the Peace or the academic registrar of the institution that issued the transcript. For further information, refer to the guidelines on certification at international.curtin.edu.au/apply

**SCHOLARSHIPS AT CURTIN**

Scholarships are part of Curtin’s ongoing commitment to reward academic excellence and enable students to realise their potential and graduate career-ready in a global and competitive market.

**AUSTRALIAN AWARDS SCHOLARSHIP (AAS)**

AAS Scholarships provide higher education opportunities for people from developing countries. The scholarships give students the opportunity to study in Australia to build the skills and knowledge to promote development in their home country. The various scholarship programs have been established to support enduring ties between Australia and our neighbours. Scholarships are mainly at postgraduate level however there are a limited number of undergraduate scholarships (country specific) available.

For a list of partner countries, scholarship eligibility and application information, refer to:

Email: issu@curtin.edu.au
Web: australiaawards.gov.au or ausaid.curtin.edu.au

**AUSTRALIA AWARDS ENDEAVOUR SCHOLARSHIPS**

The Endeavour Awards is the Australian Government’s internationally competitive, academic merit-based scholarship program, providing opportunities for citizens of the Asia-Pacific, Middle East, Europe and the Americas to undertake study, research and professional development in Australia.

For a list of partner countries, scholarship eligibility and application information, refer to:

Email: issu@curtin.edu.au
Web: australiaawards.gov.au
