

## INTRODUCTORY CLINICAL SUPERVISION WORKSHOPS

### Are you a health professional looking to develop your student supervision skills?

Curtin's Faculty of Health Sciences is hosting a one-day Introductory Clinical Supervision Workshop for Health Professionals

This interactive workshop is an opportunity to develop your student supervision skills. You will be provided with a framework and model establishing an effective supervision culture within health and human service organisations. The workshop will also address compliance and assessment processes specific to your profession

#### Who should attend?

Health professionals in the health or human services sector who take, or are willing and qualified to take, Curtin students on placement

Registrations for this workshop are reserved for dietetics, medical radiation science, nursing, oral health, pharmacy and physiotherapy professionals

#### Details

Date: Wednesday 28 June 2017  
Time: 9.00am - 4.30pm  
Curtin Venue: To be confirmed on registration  
Cost: Free  
Parking: Available on campus (fees apply)

#### Sessions and Facilitators

Session 1: Course specific requirements led by Curtin academic staff  
Session 2: Interprofessional delivery model and generic supervision facilitated by Kate Duncanson and Amanda McCallum

#### Registration

Registrations are now open. Please email your discipline contact by **Wednesday 14 June 2017**
