Welcome to Curtin

Curtin is a vibrant, young university where ideas and cultures combine to create a place of enthusiasm, endeavour and achievement.

When you choose Curtin, you are choosing an innovative, global university with extensive industry connections and campuses in Western Australia, Malaysia, Singapore, Dubai and Mauritius.

You’ll learn in technology-rich environments and feel inspired by our high-impact research spanning many areas including astronomy and planetary science, emerging technologies, economics, health, minerals, energy and sustainability.

THE SCHOOL OF PSYCHOLOGY
For more than 50 years, the School of Psychology has been committed to delivering excellence and innovation in education and research.

With the support of experienced, dedicated teaching staff and modern learning facilities, you will be prepared to excel in professional or academic fields of psychology, and aspire to expand humanity’s understanding of behaviour and the mind.

STUDYING AT POSTGRADUATE LEVEL
A postgraduate degree at Curtin can change your life. It will give you additional knowledge to advance your career, specialise in a particular area or take your career in a promising new direction.

Postgraduate options
Curtin offers postgraduate coursework and research qualifications. A graduate certificate is six months’ full-time study; a graduate diploma is one year of full-time study, and a master degree is one-to-three years’ full-time study.

A research degree involves independent, original research and completion of a thesis, and may involve up to four years of full-time study.

Gain industry experience
Experiential learning is highly valued by employers. You will benefit from Curtin’s strong links to business and industry, working on real projects and research initiatives, undertaking internships and attending events and networking opportunities.

Convenient and flexible study
Course flexibility enables you to combine your current work commitments with study. Many courses allow domestic students to study full-time, part-time or online.

Financial assistance
You could be eligible to apply for a Curtin scholarship or other support such as FEE-HELP, employer-funded study or income tax deductions.

WELCOME TO CURTIN

PERTH WEATHER
Perth has a Mediterranean climate

<table>

Perth received a 5-star rating for teaching quality, learning resources, learner engagement, student support and skills development.(2019 Good Universities Guide)

EXPERIENCE CURTIN

ECONOMY
Perth is a multicultural, prosperous and safe – an ideal destination for students and tourists alike.

AFFORDABLE LIVING
Perth has lower living costs than Sydney, Melbourne, Brisbane and Adelaide.

TRANSPORT
The metropolitan area is serviced with an extensive road network and easy-to-use public transport.

SHOPPING AND CULTURE
Perth is home to Elizabeth Quay, Forrest Place, Murray Street Mall and numerous galleries. Close to Perth, the port city of Fremantle is a great place to learn about WA history.

FOOD AND DRINK
Cafes and restaurants offer a variety of global cuisine. You can try the best of WA produce at Yagan Square, and find wineries, cheese shops and chocolate factories in the Swan Valley, WA’s oldest wine region.

ENTERTAINMENT
Perth hosts numerous domestic and international sports competitions, music concerts and festivals throughout the year.

NATURE AND WILDLIFE
There are many magnificent parks and gardens in and around Perth. Kings Park, which is larger than New York’s Central Park, showcases more than 3,000 species of WA’s unique flora. Caversham Wildlife Park has many Australian animals, including kangaroos you can handfeed.

AQUATIC AND COASTAL
Perth’s coast features breath-taking beaches and scenery. Don’t forget to visit Rottnest Island – a famous holiday destination near Perth that is home to the friendly quokka.

EXPERIENCE PERTH
Located on the beautiful west coast of Australia, Perth is multicultural, prosperous and safe – an ideal destination for students and tourists alike.

Welcome to Curtin
GET THE CURTIN EDGE

Curtin ensures you gain the knowledge and skills required to get ahead in today’s changing workplace.

WORK-INTEGRATED LEARNING
Learn through direct experience by undertaking a clinical placement. You will practise and improve on the clinical skills you have learned in class and work closely with other professionals, developing your communication and leadership qualities.

CAREER SUPPORT
Curtin Careers, Employment and Leadership can help you find part-time work in Perth to support you while you’re studying. We also offer career planning services to identify further study or career options, while our Global Careers service can connect you with employers around the world.
careers.curtin.edu.au

FACILITIES
Modern learning environments recreate real workplaces that enhance your studies.

Real-world clinics
Our on-campus adult psychology clinic and a child psychology clinic, located at the Health and Wellness Centre, provide services to members of the public and allow students to learn in a clinical environment.

Psychology Experimental Research Laboratories and Curtin (PERL-C)
Our PERL-C facilities provide advanced spaces for learning and research in psychology. You’ll have access to the latest technology, including EEG and eye-tracking equipment, which you can use to undertake a range of research activities.

Curtin Neurosciences Research Laboratory
This laboratory assists a multi-disciplinary research team to investigate ageing, non-invasive brain stimulation, rehabilitation of movement and cognition, Parkinson’s Disease, stroke, and exercise. The team uses a range of experimental approaches and technologies to study the ways in which the human brain can change and how this affects behaviour and neuromuscular function.

The Perth campus is located just six kilometres from the city centre. Through our 20-year master plan, we’re transforming the campus as a contemporary cultural precinct that brings together higher education, business, technology, the arts and recreation.

LIVING ON CAMPUS
We offer more than 1,000 places to stay at our Perth campus. You’ll enjoy comfortable and tidy single or shared accommodation, free wi-fi, parking and an off-peak gym membership at Curtin Stadium.

Rooms are fully furnished and there are plenty of recreation facilities and support services, plus you’re in easy walking distance of your classes, the library, shopping centre, gym and public transport. You can also participate in a range of weekly activities and social events.
curtin.edu/housing

WELLBEING SERVICES
There is a range of confidential wellbeing services if you ever need help or advice, or you’re unsure where to find the support you need.

You can also consult a doctor, counsellor, physiotherapist and other health professionals at our campus-based medical centre and health and wellness clinics.
curtin.edu/personalsupport

CHILDCARE AND SCHOOLING
The Curtin University Early Childhood Centre is a popular on-campus childcare facility for children under the age of five. We strongly recommend you apply for a place for your child as early as possible.
curtin.edu/earlychildhoodcentre

Subsidised schooling
If you’re an international student and have school-aged children, your children may be eligible to access government schooling at the same subsidised fee levels that apply to local students.
curtin.edu/familyfriendly

SECURITY AND PERSONAL SAFETY
Curtin provides a range of safety resources including swipe-card building access, 24/7 security patrols, well-lit pathways, after-hours security escort, a campus courtesy bus, emergency telephone stations and the SafeZone security app.

This one-year degree provides advanced professional training in psychology. It will equip you with education and training in the professional practice of psychology, and is designed to integrate coursework, research and placement components with an emphasis on an experiential learning. You’ll receive a rewarding and relevant learning experience throughout the course.

You will develop a detailed understanding of both theory and research. You’ll graduate of these theories, and the clinical applications of psychology.

The practical elements of this course have been phenomenal. We have been supported and taught. Currently, anxiety can be treated via “extinction” learning. Lipp says. This occurs through increasing and continued exposure to the cause of the fear. For example, if a patient has a severe fear of dogs after being bitten by a dog in the past, the patient would be gradually exposed to a dog in a safe setting and encouraged to increase interaction with the dog over time.

However, the learning acquired in this treatment is context-specific compared to the original acquisition of the fear. Should the patient encounter a different breed of dog, for example, the fear can easily return.

To combat this, Lipp and his team have been trialling a new methodology called novel fear facilitation extinction (NFE).

The team has been surprised by the results so far, which confirm that NFE has a significant long-term impact on extinguishing fear.

“Fear and anxiety are actually positive things, not negative”, Lipp explains. “If you were not afraid of things that are dangerous, then most likely you wouldn’t be here! The problem is that it can get out of hand.”

“The statistics suggest that one in six Australians will develop an anxiety disorder in their lifetime. So it’s a significant problem.”

Over the past few decades, Lipp says great progress has been made in identifying and treating fears in the short term.

“The big idea is that rather than presenting the stimuli that created the anxiety alone, you pair them with a novel stimulus that is surprising.”

Lipp hopes to tackle these significant relapse rates through research that could enhance the long-term effectiveness of treatments.

“The question now is in what way does NFE strengthen extinction learning?” Lipp says. “One possibility is that NFE creates bigger prediction errors. The less predicted its “extinction” – that interests School of Psychology researcher, Professor Ottmar Lipp.

Our research degrees enable you to conduct independent, original research under the supervision of a senior academic. You’ll be supported through the University’s facilities and industry partnerships, helping you turn your discoveries into real-world outcomes.

The following overarching research degrees encompass many specialist subjects:

- Doctor of Philosophy
- Master of Philosophy
- Master of Research

Find a supervisor at research.curtin.edu.au. Alternatively, contact our Graduate Research School for more information:

### RESEARCH DEGREES

#### PSYCHOLOGY RESEARCH

The theme of neurosciences and behaviour underpins the School of Psychology’s research into the brain, human adaptations and functioning. Our researchers are currently focusing on preventing, supporting and treating chronic physical, mental and developmental health issues.

Research areas include:

- cancer prevention
- physical activity and wellbeing
- emotion, learning and psychophysiology
- clinical psychology.

#### THE POSITIVITY PROGRAM THAT’S HELPING AUSSIE KIDS HELP THEMSELVES

Aussie Optimism is a series of school programs improving the mental health of children and pre-adolescents around Western Australia.

Developed by Associate Professor Clare Roberts, Associate Professor Rosanna Rooney and Dr Robert Kane, the evidence-based, universal program aims to promote children’s mental wellbeing and prevent depression and anxiety, which are ranked as the leading causes of disability worldwide.

In the program, children in years 1-8 work with their teacher to learn how to identify their feelings, evaluate their thoughts more accurately, empathise with their classmates and develop positive coping, social and self-awareness skills.

Findings indicate that Aussie Optimism reduces anxiety and depression symptoms and disorders, reduces suicidality, and increases family functioning, social skills and mental health in young children and pre-adolescents.

[curtin.edu/aussoptimism](http://curtin.edu/aussoptimism)

Before applying for a health sciences course, you should be aware that some additional screening may be required.

#### CRIMINAL RECORD SCREENING

Many of our health sciences courses require you to undertake external placements, clinical practice or fieldwork involving contact with the public. External agencies, such as government departments, non-government agencies and hospitals, may require you to obtain a criminal record screening prior to undertaking any external placement, practicum or fieldwork. Please note that external agencies can vary their requirements without notice and may not always advise Curtin of these changes.

A criminal record screening may not necessarily preclude you from participating in any of the above. However, serious crimes of a violent or sexual nature, where the victim was under 18 years of age or elderly, or any offence that resulted in imprisonment are required to undertake external placements, clinical practice or fieldwork involving contact with the public.

If you are enrolled in a course that includes supervised practice (including research) in a clinical setting, you are required to undergo screening for and vaccination against a range of infectious diseases before beginning your placement.

If you test positive to a blood-borne virus, you are advised to contact your course coordinator for career advice. You may also need to complete other requirements at your own cost, such as senior first aid training.

For specific details relating to these requirements, visit [curtin.edu/healthscreening](http://curtin.edu/healthscreening)

#### SCREENING AND REGISTRATION

#### CLINICAL HEALTH SCIENCES SCREENING

If you are enrolled in a course that includes supervised practice (including research) in a clinical setting, you are required to undergo screening for and vaccination against a range of infectious diseases before beginning your placement.

If you test positive to a blood-borne virus, you are advised to contact your course coordinator for career advice. You may also need to complete other requirements at your own cost, such as senior first aid training.

For specific details relating to these requirements, visit [curtin.edu/healthscreening](http://curtin.edu/healthscreening)

#### WORKING WITH CHILDREN

The Working with Children (Criminal Record Checking) Act 2004 aims to protect children from harm by introducing a high standard of compulsory national criminal record checking for people working with children in Western Australia.

As a health sciences student, you may be required to work with children between the ages of zero and 17 as part of your supervised practice (including research) in a clinical setting.

If you test positive to a blood-borne virus, you are advised to contact your course coordinator for career advice. You may also need to complete other requirements at your own cost, such as senior first aid training.

For specific details relating to these requirements, visit [curtin.edu/healthscreening](http://curtin.edu/healthscreening)

#### AHPRA REPORTING

Under national law, it is a requirement that Curtin notifies the Australia Health Practitioner Regulation Agency (AHPRA) if it believes a student may place members of the public at risk as a result of a health impairment or criminal history. Curtin or its staff may also make a voluntary notification if a student has been charged, convicted or found guilty of an offence punishable by an imprisonment of 12 months, or contravened a condition of their student registration. Students who have impairments or a criminal record that has resulted in imprisonment are required to self-report to AHPRA.

[ahpra.gov.au](http://ahpra.gov.au)

#### PROVISIONAL REGISTRATION

Students enrolled in the Master of Psychology (Professional) are required to gain provisional registration with the Psychology Board of Australia. For more information, visit [psychologyboard.gov.au](http://psychologyboard.gov.au).
SCHOLARSHIPS AND FEES

You may be eligible for a scholarship to support your study. Sign up to the scholarships email alert to make sure you don’t miss an opportunity.

FEES

Tuition fees

Tuition fees are calculated on a semester basis. Fees are subject to annual increase and are calculated according to the credit points within a course. Indicative course fees for the 2020 commencement year are available from September 2019.
curtin.edu/fee-calculator

Student Services and Amenities Fee

The Student Services and Amenities Fee (SSAF) is used for supporting a comprehensive range of non-academic services and amenities. SSAF does not apply to international students.
curtin.edu/amenities-fee

FINANCIAL ASSISTANCE

Postgraduate study is an investment in your future. If you are concerned that you cannot afford postgraduate study, there are several options for financial assistance you can explore.

Employer-paid study

Your employer may help you with the cost of postgraduate study. Many organisations have employee-education policies designed to share the costs of education that is mutually beneficial.

STUDY OPTIONS

Curtin offers flexible study options to help you manage work and family commitments. You can study full-time, part-time or online*, subject to availability.

To study full-time, you must enrol in three or four units per semester (75 or 100 credits), while part-time study involves as few as one to two units (25 or 50 credits) per semester.

If you study online, you will complete the same coursework and assessments as students who study on campus.

*International students studying in Australia on a student visa must study full-time and on campus.

APPLYING AS A DOMESTIC STUDENT

You are a domestic applicant if:

• you are an Australian citizen, Australian dual citizen or New Zealand citizen, or
• you are a permanent resident of Australia, or
• you hold an Australian permanent humanitarian visa.
curtin.edu/pg-apply

Course content

Note that some course units are common to undergraduate and postgraduate courses and classes may therefore include undergraduate and postgraduate attendees.
